The Card (cartridge) R4 SDHC is the version with compatibility to support memoirs of high capacity (of more than 4 GB microSDHC) of the famous cartridge R4, the most well-known and sold card for the Nintendo DS, recognized by his quality and simplicity of handling. This card is the ORIGINAL version developed by the same team as the Card R4 normal. The R4SDHC is a finished solution to enjoy completely your nintendo ds both the version lite and the normal one, you do not need any additional component to make her work, install the firmware adapted in your card of memory, insert the cartridge in your nintendo and to work.
